Hi, I'm Madhin. I am an enthusiastic and hardworking Junior Developer who has recently completed a full stack software development course with _nology.io. In addition to my newly gained tech skills, my previous background in fashion merchandising has equipped me with invaluable business skills, such as data analysis, communication, and people management.

EXPERIENCE

○ June 2021 – Present (3 months)

TRAINEE SOFTWARE DEVELOPER

_nology.io

- Building proficiency in multiple coding languages and concepts, including:
 - Front end: HTML, CSS, SCSS, JavaScript and React
 - Back end: Java, Spring Boot and MySQL databases
- Gaining exposure to:
 - Firebase hosting & storage
 - Authentication & authorisation
 - Unit testing using Jest and Cypress.
- Each coding concept taught was taken and applied in personal projects which can be found on my portfolio site but also in a client project that was delivered over 4 weeks as a group of 10 using agile methods.
